Projects

Student Academic Management Website

- Project Type:** Graduation Project (two person)
- Duration:** June 2025 - August 2025
- Frontend:** Developed with TypeScript & ReactJS, state management with Redux, form handling & validation with React Hook Form, implemented routing/guard & responsive UI, optimized user experience
- Backend:** Laravel RESTful API, JWT authentication, MySQL
- Github:** [Graduation Project](#)

Mini E-commerce Website

- Project Type:** Personal Project
- Duration:** September 2023 - November 2023
- Description:** A basic project based entirely on the "The Gioi Di Dong" website. The goal was to improve my logical thinking for UI layout and to master basic CSS and JavaScript
- Frontend:** HTML, CSS, JavaScript
- Github:** [The Gioi Di Dong Website](#)

Advice Generator (React)

- Project Type:** Personal Project
- Duration:** September 2024 - October 2024
- Description:** This project provides users with random advice, built with ReactJS and including CRUD operations for advice. The basic-level project was an exercise to improve analytical thinking for layout division.
- Frontend:** HTML, CSS, ReactJs
- Github:** [Advice Generator Project](#)
